

Traction Batteries

- 2 volt traction cells British standard din
- Gel monoblocs
- Deep cycle wet monoblocs
- Standby power batteries
- Mobility batteries
- Automotive batteries

Forkliftproducts specialise in the supply and service of industrial batteries.

We source our industrial batteries from around the world ensuring a product of the highest quality and value guaranteed. This means we are not tied to one manufacturer and can supply a product that is the most appropriate for your applications - not a limited range from just one manufacturer. Our sales, service and technical team are focused on providing the solutions on industrial batteries required to ensure your plant and equipment is kept running in the most cost effective and efficient way. From the moment we take your enquiry, you can be assured of a service and attention to detail that is the envy of our competitors.

From the largest UPS battery bank to the smallest battery plug, we provide the complete range of industrial batteries backed with knowledge and first class service.

We look forward to hearing from you, email us at sales@forkliftproducts.com or call **01224 783777** for further information.
